1. IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

Product Name: NPD 100 PLUS

Other Means of Identification: Mixture

Recommended Use of the Chemical and Restriction on Use: Fuel

Details of Manufacturer or Importer:
Nelson Petroleum Distributors LTD
13 McPherson Street
Richmond
Nelson 7050

Phone Number: (+64) 3544 6163

Emergency telephone number: 0800 764 766

2. HAZARDS IDENTIFICATION

Hazardous Nature:

flammable liquids

Flammable Liquids 1 H224 Extremely flammable liquid and vapour.

health hazard

Carcinogenicity 2 H351 Suspected of causing cancer.

Aspiration Hazard 1 H304 May be fatal if swallowed and enters airways.

environment

Aquatic Chronic 2 H411 Toxic to aquatic life with long lasting effects.

Skin Corr. 3 H316 Causes mild skin irritation.

HSNO Classification
3.1A - Flammable liquid - very high hazard.
6.1E - Substances that are acutely toxic - May be harmful, Aspiration hazard.
6.3B - Substances that are mildly irritating to the skin.
6.7B - Substances that are suspected human carcinogens.
9.1B - Substances that are ecotoxic in the aquatic environment.

Signal Word Danger

Hazard Statements
H224 Extremely flammable liquid and vapour.
H316 Causes mild skin irritation.
H351 Suspected of causing cancer.
H304 May be fatal if swallowed and enters airways.
H411 Toxic to aquatic life with long lasting effects.

(Contd. on page 2)
3. COMPOSITION AND INFORMATION ON INGREDIENTS

Chemical Characterization: Mixtures
Description: Mixture of substances listed below with nonhazardous additions.

<table>
<thead>
<tr>
<th>CAS: 86290-81-5 Gasoline</th>

</table>

Additional information: This product contains a performance enhancing additive present at <3%

4. FIRST AID MEASURES

Inhalation:
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention if breathing problems develop.

Skin Contact:
In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur.
If product is injected under the skin seek immediate medical attention as surgery may be required.

Eye Contact:
In case of eye contact, hold eyelids open and rinse with water for at least 15 minutes. Seek medical attention if symptoms occur.

Ingestion:
If swallowed, do not induce vomiting. If vomiting occurs spontaneously, keep head below hips to prevent aspiration. Do not give anything by mouth to an unconscious person. Seek immediate medical attention.
SAFETY DATA SHEET
according to HSNO Act 1996

Product Name: NPD 100 PLUS

Symptoms Caused by Exposure:
Inhalation: May cause respiratory irritation, May cause drowsiness, dizziness, headaches and other anaesthetic effects.
Skin Contact: Causes mild skin irritation.
Eye Contact: May cause eye irritation.
Ingestion: May be fatal if swallowed and enters airways. May cause pulmonary oedema and chemical pneumonitis.

Medical Attention and Special Treatment:
There may be no initial symptoms from high pressure injection, but prompt surgical treatment may significantly reduce the ultimate extent of injury.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Water fog, foam, dry chemical or carbon dioxide. Do not use full water jet.
Specific Hazards Arising from the Chemical:
Hazardous combustion products include oxides of carbon and sulphur, aldehydes, incomplete combustion products and smoke.
Product is extremely flammable. Vapours may travel considerable distances to a source of ignition where they can ignite, flashback, or explode.
Closed containers may explode when exposed to extreme heat. Containers close to fire should be removed if safe to do so. Use water spray to cool fire exposed containers.

Special Protective Equipment and Precautions for Fire Fighters:
When fighting a major fire wear self-contained breathing apparatus and protective equipment.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures:
Wear approved respiratory protection, chemical resistant gloves, protective clothing and safety boots. Evacuate all non-essential personnel from affected area. Do not breathe vapours. Ensure adequate ventilation. Extinguish all sources of ignition. Avoid sparks and open flames. No smoking.

Environmental Precautions:
In the event of a major spill, prevent spillage from entering drains or water courses.

Methods and Materials for Containment and Cleaning Up:
Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal. Use only non-sparking tools.

7. HANDLING AND STORAGE

Precautions for Safe Handling:
For use as a motor fuel only. Do not use as a cleaning solvent. Do not siphon by mouth.
Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapours. Use only outdoors or in a well-ventilated area.
Take precautionary measures against static discharge. This product is a static accumulator. Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

Conditions for Safe Storage:
Store in a cool, dry and well ventilated area. Keep container tightly closed when not in use. Only use approved containers. Protect from heat, sparks, open flames and other sources of ignition. Keep away from strong oxidising agents, strong acids, bases and halogens.

SAFETY DATA SHEET
according to HSNO Act 1996

Printing date 01.09.2018
Revision: 01.09.2018

Product Name: NPD 100 PLUS

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Standards:

- **CAS:** 86290-81-5 Gasoline
- **WES** STEL: 1480 mg/m³, 500 ppm
  - **TWA:** 890 mg/m³, 300 ppm

**Engineering Controls:**
Maintain air concentration below occupational exposure standards, providing adequate ventilation. Use explosion-proof ventilating equipment.

**Respiratory Protection:**
Use an approved organic vapour respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentrations of mist or vapour, inadequate ventilation, development of respiratory tract irritation) and engineering controls are not feasible. See Australian/New Zealand Standards AS/NZS 1715 and 1716 for more information.

**Skin Protection:**
Chemical resistant nitrile or viton gloves are recommended. See Australian/New Zealand Standard AS/NZS 2161 for more information.

When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Occupational protective clothing (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing). See Australian/New Zealand Standard AS/NZS 4501 for more information.

**Eye and Face Protection:**
Eye and face protectors for protection against splashing materials or liquids. See Australian/New Zealand Standard AS/NZS 1337 for more information.

9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance:**
- **Form:** Liquid
- **Colour:** Purple
- **Odour:** Petroleum
- **Odour Threshold:** No information available
- **pH-Value:** No information available
- **Melting point/freezing point:** No information available
- **Initial Boiling Point/Boiling Range:** >20 °C
- **Flash Point:** <=40 °C (ASTM D-56)
- **Flammability:** Extremely flammable
- **Auto-ignition Temperature:** No information available
- **Decomposition Temperature:** No information available
- **Explosion Limits:**
  - **Lower:** 1.2 Vol %
  - **Upper:** 8.2 Vol %
- **Vapour Pressure at 34 °C:** 69 kPa
- **Relative Density at 15 °C:** 0.72 - 0.78
- **Vapour Density:** No information available
- **Evaporation Rate:** >10 (Butyl acetate = 1)
- **Solubility in Water:** Negligible
- **Partition Coefficient (n-octanol/water):** >3 log POW

10. STABILITY AND REACTIVITY

Possibility of Hazardous Reactions: Hazardous polymerisation will not occur.

Chemical Stability: Stable at ambient temperature and under normal conditions of use.

Conditions to Avoid: Heat, sparks, open flames and other sources of ignition.

Incompatible Materials: Strong oxidising agents, strong acids, bases and halogens.

Hazardous Decomposition Products:
Oxides of carbon and sulphur, aldehydes, incomplete combustion products and smoke.

11. TOXICOLOGICAL INFORMATION

Toxicity:

| LD₅₀/LC₅₀ Values Relevant for Classification: | CAS: 86290-81-5 Gasoline |
| Orals | LD₅₀ | >5,000 mg/kg (rat) |
| Dermal | LD₅₀ | >2,000 mg/kg (rabbit) |
| Inhalation | LC₅₀ | >5,000 mg/m³ (rat) |

Acute Health Effects

Inhalation:
May cause respiratory irritation, May cause drowsiness, dizziness, headaches and other anaesthetic effects.

Skin: Causes mild skin irritation.

Eye: May cause eye irritation.

Ingestion:
May be fatal if swallowed and enters airways. May cause pulmonary oedema and chemical pneumonitis.

Skin Corrosion / Irritation: Causes skin irritation.

Serious Eye Damage / Irritation: Based on classification principles, the classification criteria are not met.

Respiratory or Skin Sensitisation: Based on classification principles, the classification criteria are not met.

Germ Cell Mutagenicity: Based on classification principles, the classification criteria are not met.

Carcinogenicity: Suspected of causing cancer.

Reproductive Toxicity: Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Single Exposure:
Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Repeated Exposure:
Based on classification principles, the classification criteria are not met.

Aspiration Hazard: May be fatal if swallowed and enters airways.

Chronic Health Effects:
Prolonged or repeated exposure may cause potentially irreversible damage to the nervous system. May cause skin dryness and defatting leading to dermatitis.

Existing Conditions Aggravated by Exposure: No information available

Additional toxicological information: No information available

Persistence and Degradability: Expected to be inherently biodegradable.
Bioaccumulative Potential: Bioaccumulation is not expected to occur.
Mobility in Soil: Expected to be mobile.
Other adverse effects: No further relevant information available.

13. DISPOSAL CONSIDERATIONS

Disposal Methods and Containers: Dispose according to applicable local and state government regulations.
Special Precautions for Landfill or Incineration: Please consult your state Land Waste Management Authority for more information.

14. TRANSPORT INFORMATION

UN Number
IMDG, IATA

Proper Shipping Name
NZS 5433
IMDG, IATA

Dangerous Goods Class
NZS 5433
IMDG Class:

III Flammable liquids.

Packing Group:
NZS 5433
IMDG, IATA

EMS Number:
F-E,S-E

Hazchem Code:
3YE

Special Provisions:
243, 363

Limited Quantities:
1L

Excepted quantities (EQ):
E2

Packagings & IBCs - Packing Instruction:
P001, IBC02

Portable Tanks & Bulk Containers - Instructions:
T4

Portable Tanks & Bulk Containers - Special Provisions:
TP1

16. OTHER INFORMATION

Date of Preparation or Last Revision: 01.09.2018
Prepared by: MSDS.COM.AU Pty Ltd

Abbreviations and acronyms:
- IMDG: International Maritime Code for Dangerous Goods
- IATA: International Air Transport Association
- GHS: Globally Harmonised System of Classification and Labelling of Chemicals
- CAS: Chemical Abstracts Service (division of the American Chemical Society)
- LC₅₀: Lethal concentration, 50 percent
- LD₅₀: Lethal dose, 50 percent
- IARC: International Agency for Research on Cancer
- STEL: Short Term Exposure Limit
- TWA: Time Weighted Average
- WES: Workplace Exposure Standard
- Skin Corrosion/Irritation 2: Skin corrosion/irritation – Category 2
- Skin Corr. 3: Skin corrosion/irritation – Category 3
- Germ Cell Mutagenicity 1B: Germ cell mutagenicity – Category 1B
- Carcinogenicity 1B: Carcinogenicity – Category 1B
- Carcinogenicity 2: Carcinogenicity – Category 2
- Toxic To Reproduction 2: Reproductive toxicity – Category 2
- STOT SE 3: Specific target organ toxicity (single exposure) – Category 3
- Aspiration Hazard 1: Aspiration hazard – Category 1
- Aquatic Acute 2: Hazardous to the aquatic environment, short-term (Acute). Category 2
- Aquatic Chronic 2: Hazardous to the aquatic environment, long-term (Chronic). Category 2
